

Human rights - Technology

Data privacy, artificial intelligence

- We are committed to the ethical and responsible use of data and technology as outlined in our [Ethical Use of Data and Technology Policy \(PDF 0.3 MB\)](#).
- We are also committed to design, implement and deploy artificial intelligence (AI) systems in a manner that respects the human rights of affected rightsholders, including the right to non-discrimination, while ensuring these systems are transparent, responsible, accurate and appropriate for their intended context. Find more information on our commitment to ethical and responsible use of AI [here](#).
